**Website:** www.shopfrontwa.org.au

**Facsimile:** 08 9371 5139

**The Shopfront was established in Maylands as the Church's response to a growing number of people in Perth who came seeking its assistance. In the early years the Centre operated as a simple place of hospitality and sharing. However, gradually people came with other needs related to homelessness, health issues and lack of food or finance.**

Thankfully, as The Shopfront reached out to help more people in need, more generous volunteers and donors came forward sharing their time, talents and resources. The Shopfront is the front line for welfare within the community and offers help and assistance to people who may be experiencing difficulty in their lives, for example: accommodation, budgeting, addiction, violence, loneliness, etc.

The Shopfront is run predominately by volunteers, who offer assistance in a friendly, non-bureaucratic manner and network with other agencies to obtain the appropriate assistance.

Although thousands of visitors came to The Shopfront in 2014, a really important aspect of the agency is the development of relationships with people who are regular visitors. There are people in the Maylands area who are socially isolated and the friendship that they experience at The Shopfront is so important to their well-being.

**Facsimile:** 08 9258 7774

**Emmaus Community provides long term independent community living for people of adult age who live with mental health issues. The environment is such that it supports and encourages the independence of the individual to the best of each member's ability.**

Emmaus started in 1996 as an informal drop in centre, and was set up out of the need for people living with mental illness to have some form of ongoing emotional support after leaving crisis care. Many people living with mental health issues had nowhere to go and were often very isolated. This isolation contributed to further deterioration of mental health.

As people started to use the drop in centre it was obvious that there was a need for long term permanent 'community' accommodation, as many were unable to live on their own and often had nowhere to go at night. Today, Emmaus Community owns 5 houses, rents a further 2 houses from the local Catholic Parish and one from the Archdiocese of Perth. They are in the process of building 4 purpose built community houses, which should be ready in early 2016.

The mental health system makes excellent provision for the mental health needs of their patients, however, it is the need of belonging, being able to love and be loved, being respected and most importantly of being taken seriously. This is what Emmaus strives to do for each community member on a daily basis.
